

Kids Shoe Fitter

FIND THEIR SIZE

Little feet grow fast! Did you know that your kids' feet can grow half a size or more every 2 months?

Find the right size by measuring their feet.

HOW TO MEASURE

1. Before starting, make sure your child is barefoot.
2. Place the print out on a hard, flat surface and have your child stand against a wall.
3. While against the wall, place their heel as directed.
4. Read the first line past the longest toe.
5. Repeat for the other foot. Select the size that fits the largest foot best!
